

FEE PROTECTION POLICY FOR INTERNATIONAL STUDENTS

Rationale

Signatories must ensure that the fees paid by international students for educational instruction in New Zealand are secure and protected in the event of student withdrawal or the closure of a course of educational instruction or a signatory.

International Student Fees must be processed in a manner that is consistent with normal accounting practice. Funds need to be secure from misappropriation and be available to the student in accordance with the Refund Policy and in accordance with the Education Act should the school not be able to continue to provide tuition. Funds should only be made available to the school once the income associated with those funds has been earned. This policy should be read in conjunction with the Education (Pastoral Care of International Students) Code of Practice 2016.

Purpose

1. To ensure that funds from international students are accounted for in such a way that individual student contributions can be monitored and protected.
2. To ensure that if in the event that the school is unable to continue to run a course or programme that the unspent portion of the fees is available to be returned to the student.
3. To ensure that refunds of fees can be made to the student in accordance with the Refund Policy.
4. To ensure that funds are released to the school in a timely manner once the revenue associated with those funds has been earned.
5. To ensure that only staff with appropriate authority will have access to international student funds paid in advance, namely the Director of the International College, the Business Manager and the Principal. Staff shall be appointed by these authorized parties to administer the coding and accounting of these funds.
6. To ensure that all fees paid in advance shall be paid into the school's operating account or other account authorized by the Principal.
