Introduction

This document is designed to help you plan your courses in the Senior College wisely and strategically. All the information you need is contained in this document or the links within. Your choices will determine our option structures, so we ask you to consider your selection carefully.

Note: Courses offered will depend on sufficient student demand.

Choosing Courses

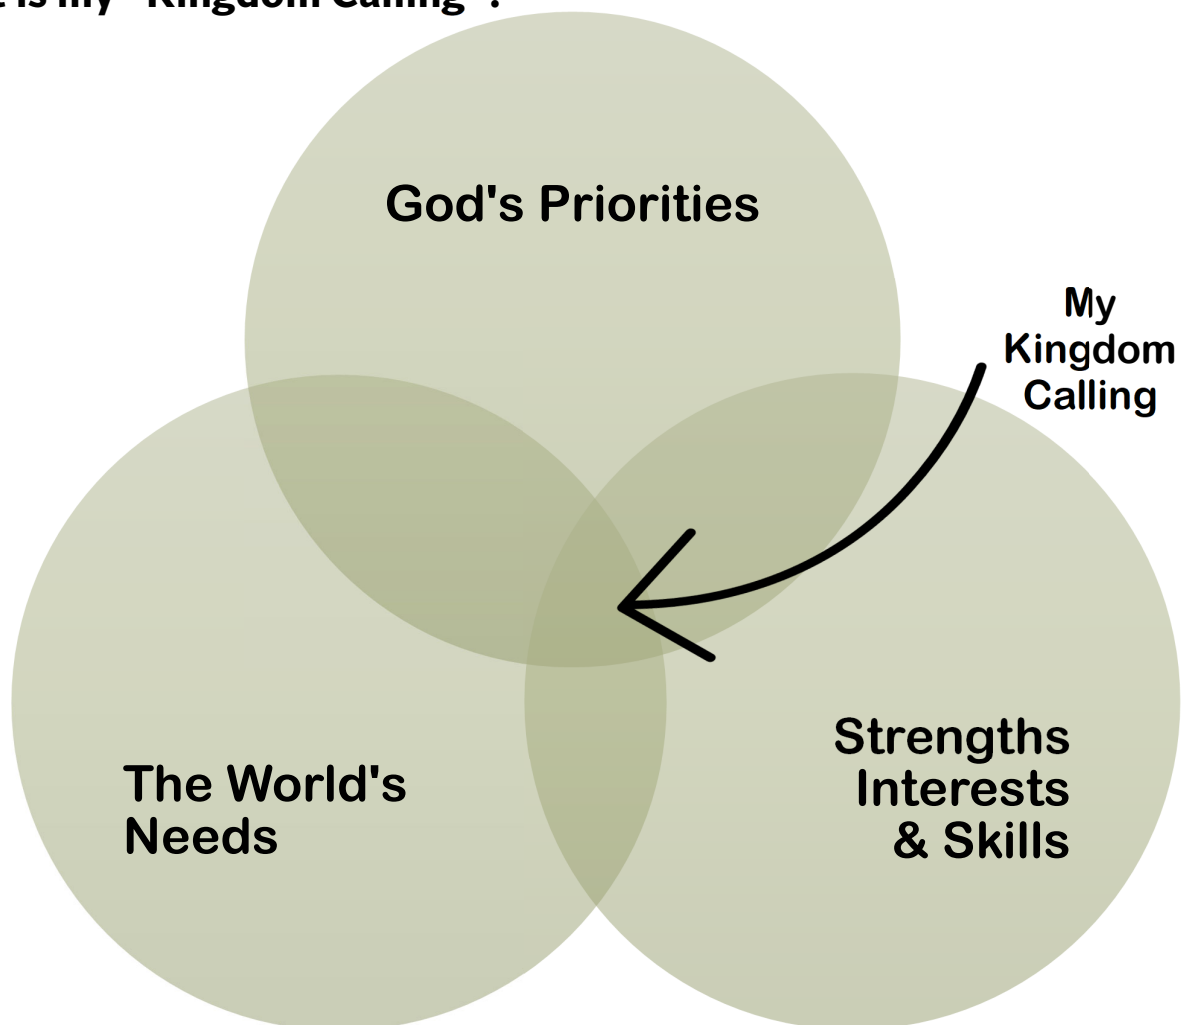

Your education at Middleton Grange involves much more than what you learn during class time. There are many areas in which you might be involved, including sport, music, drama, service, and social situations. Nevertheless, your choice of courses is of profound importance.

It is vital to choose courses which will give you a satisfying and successful year, and one which will prepare you well for the years ahead. Investigate the careers areas you might wish to enter. Check courses and grades required to enter tertiary education. Keep current with developments in chosen careers areas.

God is interested in you and the courses you choose, even though at times it may not be easy to have clear understanding of His direction for you. The Bible has some useful verses which relate to all this, one of which being:

"Commit everything you do to the Lord. Trust him, and he will help you." Psalm 37:5

What is my "Kingdom Calling"?

Course Subject Overview

	Year 11	Year 12	Year 13
Compulsory Subjects →	Christian Studies English - OR - English A Mathematics Science - OR - Life Sciences	Christian Studies English - OR - English A	Christian Focus Days

Please submit your option choices by **Friday 12th September** using the [Kamar web portal](#).

Login details have been emailed to parents/caregivers, not students.

OR If you are leaving MGS, please [click here](#) to email your intentions to our Course Selection co-ordinator instead of option choices.

In December course confirmation will be sent out by email to parents.

If you did not get these choices by email, we have not got your current email address – please update us!

Course Subject Charges

To ensure we continue delivering the high-quality education that our students and staff value, we rely on a combination of parent Special Character Voluntary Donations, school fundraising efforts, and the International College programme. Unfortunately, the State funding alone does not cover the full cost of our curriculum and programs.

The school has made every effort to avoid imposing general subject charges as part of the core curriculum. Students will have the opportunity to excel using the resources provided by the school. * However, to enhance the range of activities, projects, and experiences available, there are likely to be additional costs associated with some optional subjects and extracurricular activities. You will be emailed a link with [required stationery](#) later in Term 4.

Permission for these optional activities must be obtained in advance and costs may be charged to your child's school account, or in some cases, payment must be made before the event. If you agree to these activities, any charges may be enforced by our finance department to honour our own agreements.

Please review our updated [terms and conditions](#) to avoid unnecessary charges.

Your generous donations play a crucial role in helping us maintain the standard of education our school is known for. We sincerely encourage you to contribute to this fund, via any suggested contributions or donations, as it directly benefits your child, enriching and enhancing their learning experience. Participation in any optional activities is therefore encouraged, but no student will be academically disadvantaged for choosing not to participate.

Thank you for your continued support and commitment to our school community.

* Faculty Leaders have identified the minimum amount of photocopying required by a student to achieve excellence in their subjects. This photocopying credit will be given to students on a 'Photocopy Account'. If students exceed this amount, then the student and family must pay for further printing.

Helpful Information for selecting courses

- All advanced scientific and technical occupations require Mathematics to NCEA Level 3. You need to continue with Mathematics if you are interested in careers such as Accountancy, Physical Education, Psychology, Medicine, Consumer Science, Health and Physical Sciences.
- If you want to keep a scientific, engineering, many technical or medical careers open as a possibility, you should take Mathematics, Chemistry and Physics.
- Most Science careers require Biology with Chemistry or Physics with Chemistry.
- If you are *definitely* not interested in any of the above careers, you should consider breadth of option choice to keep doors open. The inclusion of Mathematics in your course increases the range of career opportunities which may be open to you.
- If you are not sure what you wish to do, Mathematics with two/three Science subjects plus a language-rich subject will open entry into *most* university courses.
- Attaining high standards in English and communication skills is essential for some career areas and is useful for all.
- Students heading in the direction of medical sciences need to remember that an arts course is required.
- If your career interest requires a specific course such as Art, Music, a language, etc then this must be included in your option choices.

The National Certificate of Educational Achievement (NCEA)

[Document for Parents and Students](#) with framework etc.

Entry to University

Due to the complexity of establishing a consistent standard for entry to a NZ University it is important that all students are aware of the entry criteria. It may impact on the units of study you choose to include in your course at Level 3.

For NZ Permanent Residents and Citizens

NCEA Level 3 is required for entry into university. This must include at least 14 credits in each of 3 approved subjects and the literacy and numeracy requirements.

IMPORTANT:

Courses not on the Approved Subjects list at level 3 will be identified by a hash key (#) beside the course title in Year 13 Course Information Document.

Alternative Entry Pathway

For students who do not achieve entry to university in Year 13, University of Canterbury has a Certificate of University Preparation. Other universities also offer this entry method.

In addition to gaining a university entrance qualification, students need to meet specific criteria. A rank score has been introduced to raise the bar and this is different for each faculty/programme. This is called **GES (Guaranteed Entry Score) or RES (Rank Entry Score)** and is used in some courses, in some universities.

Please note: The benchmark is changing all the time and is different for each university. Consult their website for further details.

Your Guaranteed Entry Score (GES) is based on your best 80 credits at Level 3.

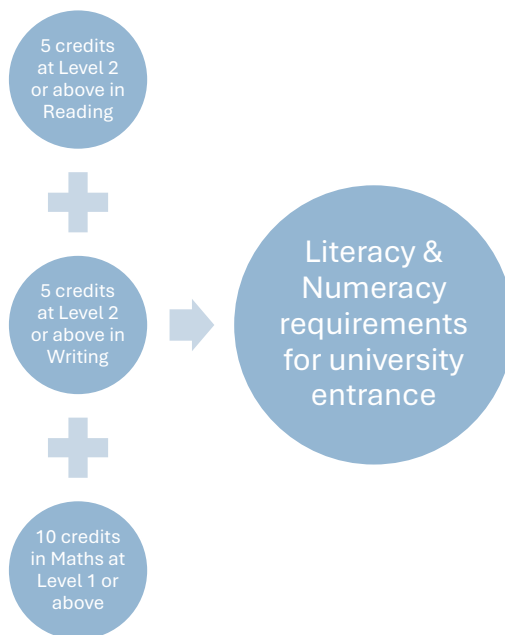

Excellence = 4, Merit = 3 and Achieved = 2. Unit standards = 2 points

When making subject choices – a minimum of four UE approved subjects is strongly recommended.

If in doubt, check with the Tertiary and Vocational Coordinator in the Careers Department on an individual basis to see if your situation meets the requirements to enter a chosen university.

Helpful Careers Advice

- Mrs Wilson, the **Tertiary and Vocational Coordinator** at school – careers.gateway@middleton.school.nz
- [Middleton CareerWise](#) for all up to date careers news, jobs, scholarships apprenticeship opportunities, links to all the major New Zealand Tertiary Institutions and careers sites such as [UC Careers](#), [Just the Job](#) and [Money Hub](#)
- [Careers NZ](#) for an extensive jobs database and great tools to help you discover your best career option.
- The Course Selection and Mini Careers Expo in Term 3 in the school gym.
- The tertiary liaisons who visit the school in Terms 1 and 3.
- Computer Programmes are available in the school library to provide information (and a printout if desired) on various careers, necessary tertiary courses of study, and the institutions that provide such courses.

New Zealand Scholarship

Scholarship is a monetary award that recognises top students. It does not attract credits, nor does it contribute towards a qualification; but the fact that a student has gained a Scholarship will appear on the Record of Learning.

The assessment for New Zealand Scholarship is standards based (but not using achievement or unit standards) and all assessments are external.

Scholarship is awarded to the best students in each of the 33 Scholarship subjects.

Scholarship enables students to be assessed against challenging standards and is demanding for the most able students in each subject.

A student who achieves scholarship will have demonstrated, within complex situations, higher level critical thinking, abstraction and generalisation and the ability to integrate, synthesise and apply knowledge, skills, understanding and ideas.

Depending on the area of study, a student will display a range of:

- Comprehensive content knowledge (breadth and depth)
- Effective communication
- Original or sophisticated solutions, performances, or approaches
- Critical evaluation
- Flexible thinking in unfamiliar/unexpected contexts.

If you have achieved numerous standards with excellence throughout your school studies and are doing level 3 standards at school, you may want to be assessed for the New Zealand Scholarship.

Scholarship assessments include content covered across all NCEA levels, so a separate course is not needed. However, individual subjects run a tutorial outside of class time to prepare students for the rigour of Scholarship.

Eligible candidates can defer taking up their monetary rewards for one year. A candidate needs to attain 3 or more Scholarships IN THE SAME YEAR to be eligible for the awards of Scholarship, Outstanding Scholarship, or Premier Scholarship.

Results will show that the Scholarship standard has been achieved (=S).

Assessment and Certification Rules and Procedures for Secondary Schools

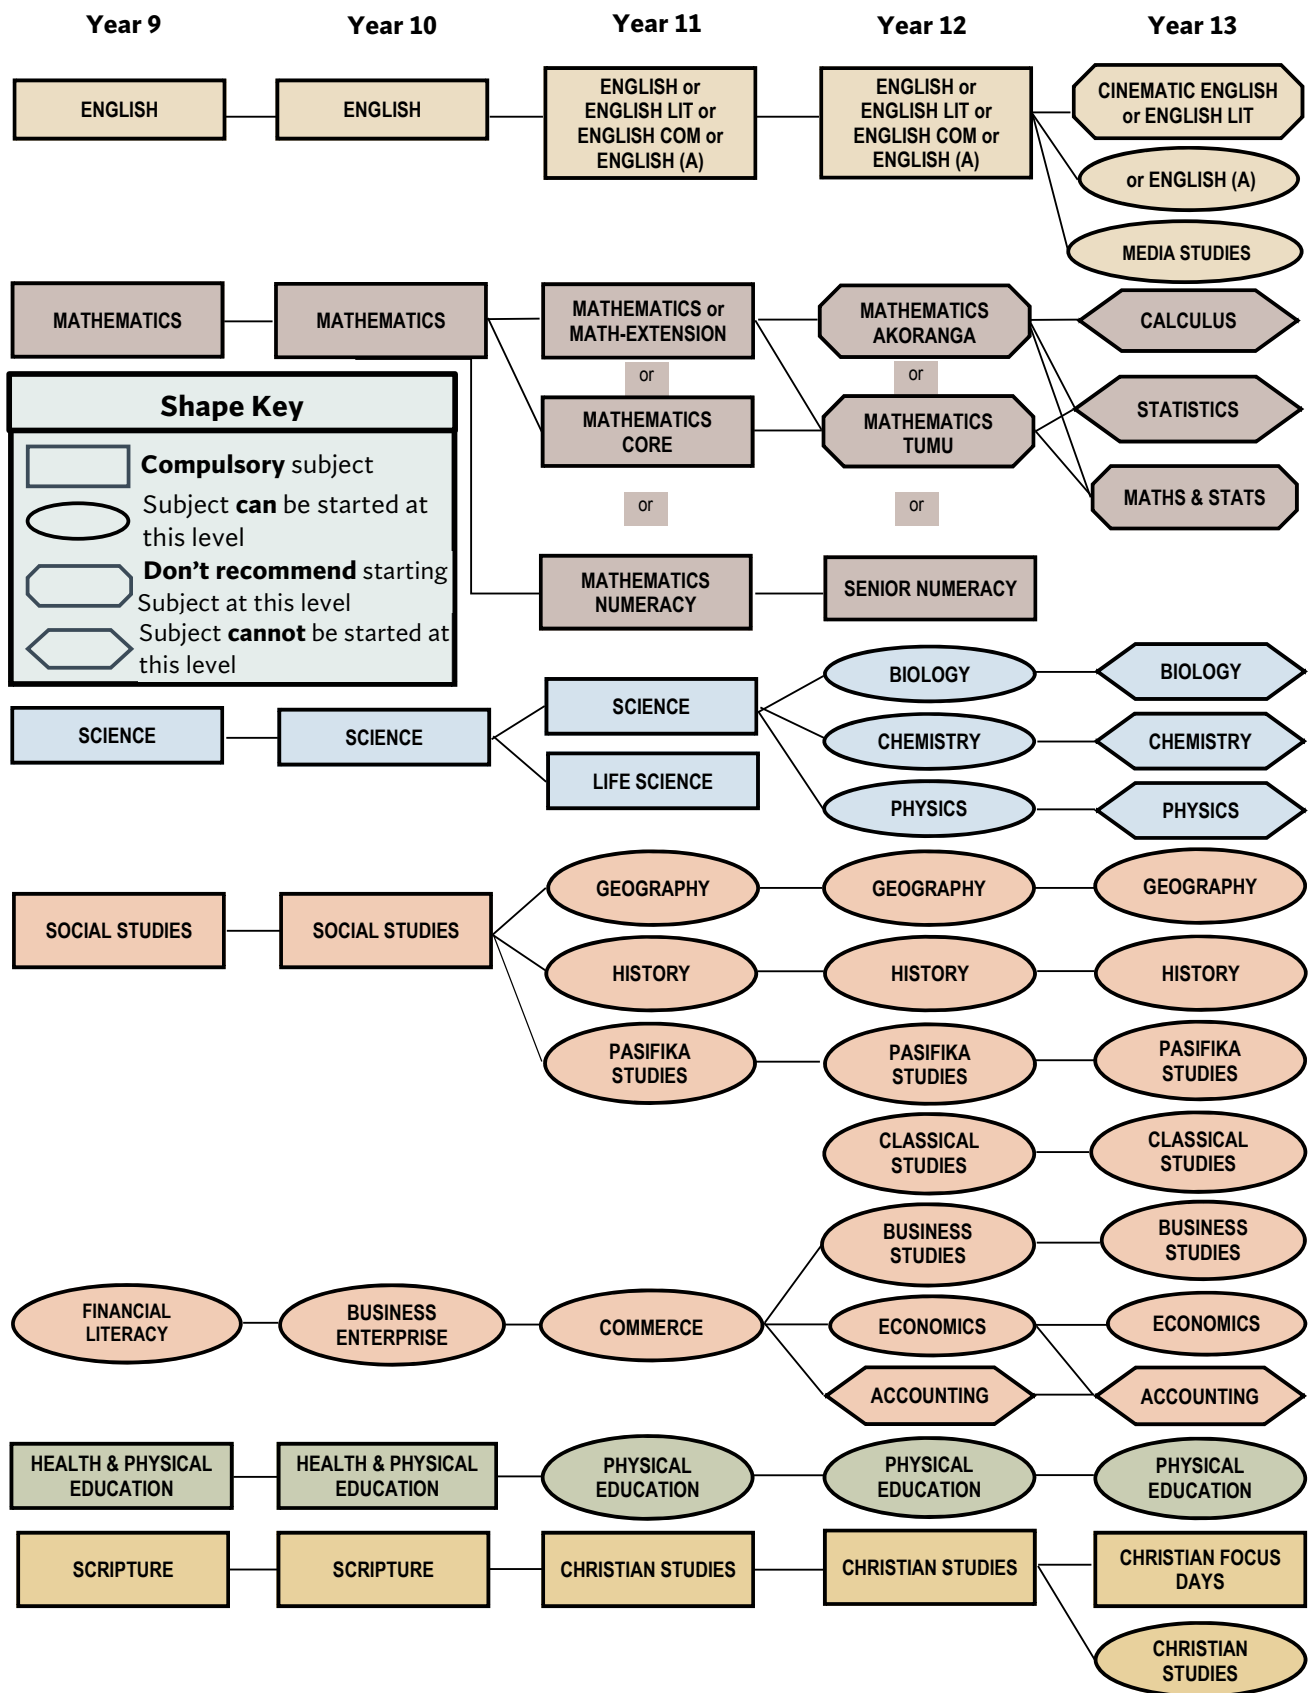

The Scholarship Monetary Awards will comprise:

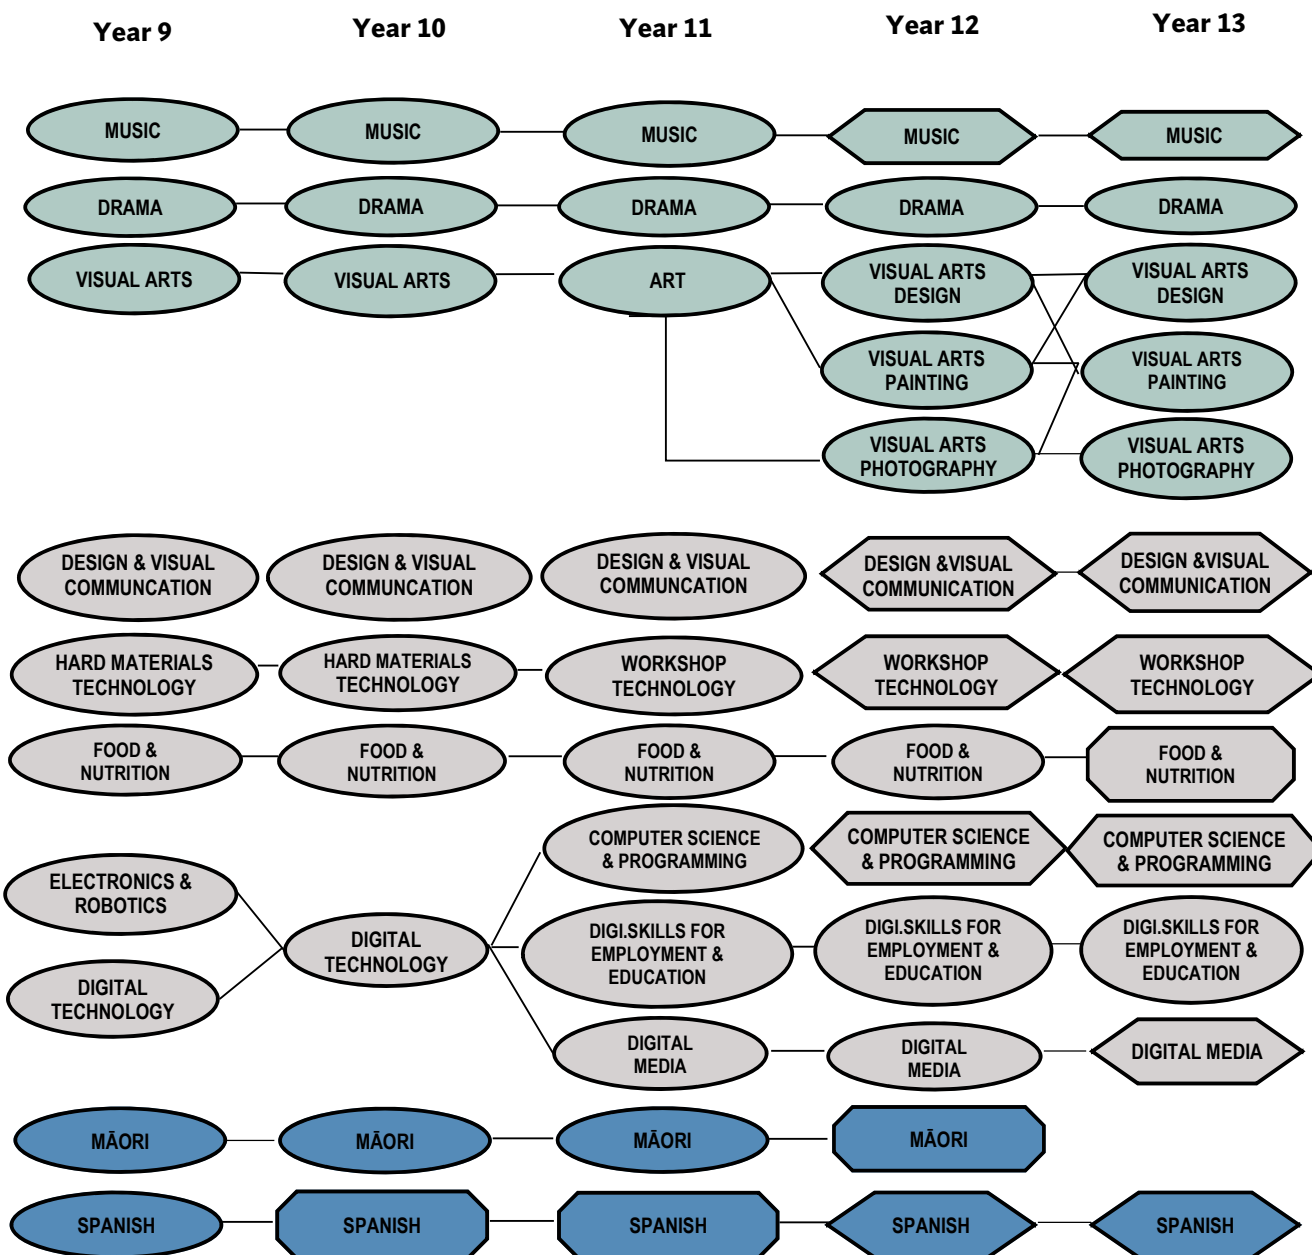

Single Subject Awards	For candidates who get Scholarship in up to two subjects A 'one-off' award of \$500 per subject (maximum payment \$1000)
Top Subject Scholar Award	For candidates who are top in one of the 33 Scholarship subjects \$2,000 each year for up to three years as long as candidates maintain a 'B' grade average in tertiary study
Scholarship Award	For candidates who get Scholarship in three or more subjects \$2,000 each year for up to three years as long as candidates maintain a 'B' grade average in tertiary study
Outstanding Scholar Award	For the top 40-60 candidates. The minimum eligibility requirement to be considered for this award is three Scholarships with at least two at "Outstanding" level or more than three Scholarships with at least one at "Outstanding". The number of recipients for this award is restricted and achieving the minimum requirement will not guarantee an award. \$5,000 each year for three years as long as candidates maintain a 'B' grade average in tertiary study
Premier Award	For the very top 5 to 10 candidates. The minimum eligibility requirement to be considered for this award is at least three Scholarships at "Outstanding" level. The number of recipients for this award is restricted and achieving the minimum requirement will not guarantee an award. \$10,000 each year for up to three years if candidates maintain at least a 'B' grade average in tertiary study

Note

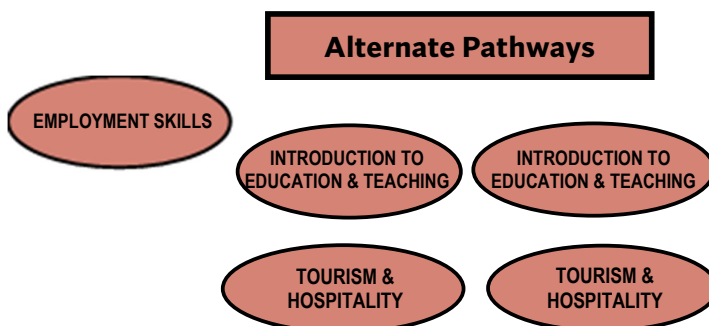

Some subjects at Middleton Grange School offer special classes to prepare students for the Scholarship exams. Ask your Head of Faculty what assistance is offered in the subjects you might consider for the Scholarship award. International fee-paying students attending overseas universities are not eligible for the national Scholarship monetary awards. They may enter the examinations and will have their Scholarship success recorded on their Record of Learning.

Middleton Grange Subject Pathways

Colour Key		
English	Mathematics & Statistics	Science
Social Science	Physical Ed & Health	Scripture & Christian Studies
Technology	The Arts	Learning Languages

These diagrams are accurate at the time of printing. Subsequent changes may occur as courses develop.

Course Information by Subject

English

There are multiple courses in Year 12. English Head of Faculty (Mr Scott Aitken) and Assistant Head of Faculty (Mrs Cassie Foster) will be happy to provide guidance if required.

The Teacher in Charge of ESOL (Mrs Shelley Liken) is very happy to give guidance to any students who have another first language.

English - Communication (12ENC)

Course Description

This course offers a flexible mix of NCEA Level 1 and Level 2 standards to support diverse learner needs. It provides pathways to gain general literacy and University Entrance (UE) literacy credits.

In response to the likelihood of several students entering Year 12 without meeting the Literacy Co-Requisites, the 12ENC course will be adapted to offer dual-level opportunities across NCEA Level 1 and Level 2 standards.

This approach recognises that some students may not yet be ready to engage with Level 2 English Achievement Standards. Providing Level 1 alternatives will create more accessible pathways to success, while still offering sufficient challenge to those prepared for Level 2 learning.

The final course outline will be determined once the class is finalised and this will be emailed out to parents and caregivers.

Possible (Internal) Achievement Standards

Students will complete **some** of the following:

Poetry Unit (Also prepares students for the Unfamiliar Text external exam)

91924 Demonstrate understanding of how context shapes verbal language use

91106 Form personal responses to independently read texts

Research Project

91105 Use information literacy skills to form a developed conclusion

Speech Presentation

91102 Construct and deliver a crafted and controlled oral text

Creative Writing

91926 Develop ideas in writing using stylistic and written conventions

Credits Available

5 Literacy Credits

4 UE Reading Credits

4 UE Reading or Literacy Credits

3 Literacy Credits

5 Literacy Credits

Possible (External) Achievement Standards

Students will complete **one** from each of the following sections:

Unfamiliar Text Exam

91927 Demonstrate understanding of significant aspects of unfamiliar texts

91100 Analyse unfamiliar texts

Film Essay

91925 Demonstrate understanding of specific aspects of studied text

91101 Analyse visual or oral text

5 Literacy Credits

4 UE Reading/Writing Credits

5 Literacy Credits

4 UE Writing Credits

English – Literature (12ENL)

Course Description

An academic course geared towards higher English study, and possibly towards Scholarship. It will involve development of advanced reading skills, the study of a number of literary texts, and development of a range of writing and speaking skills.

Achievement standards up to a total of 21 credits will be offered.

Pre-requisites Satisfactory grades from Year 11, or by negotiation with Head of Faculty

Achievement Standards

Number of Credits

Ext. Int.

91098 Analyse specified aspects of studied written text(s) through close reading, supported by evidence. **4**

91100 Analyse significant aspect(s) of unfamiliar written text(s) through close reading, supported by evidence **4**

91101 Produce a selection of crafted and controlled writing. **6**

91102 Construct and deliver a crafted and controlled oral presentation. **3**

91104 Analyse significant connections across texts, supported by evidence. **4**

OR

91105 Analyse aspects of visual and/or visual text(s) through close viewing and/or listening, supported by evidence. **4**

Total Credits: 21

English - General 12ENB (Boys' class), 12ENF (Girls' class), 12ENM (Mixed class)

Course Description

This is a more general course for the development of reading and writing skills, with some study of literature and film. Within this course it is possible to choose a boys' only class, a girls' only class, or a mixed gender class. Codes for this are ENB (Boys'), ENF (Girls'), ENM (Mixed). Please specify the preferred course on the selection sheet. Achievement standards up to a total of 21 credits will be offered in each of these classes.

Pre-requisites

Satisfactory grades from Year 11, or by negotiation with Head of Faculty

Achievement Standards

English A (English Language) 12ENA

Course Description

This course is specifically designed for English Language learners in Year 12, so that they can increase their knowledge of English vocabulary and grammar and gain skills in speaking, listening, reading and writing.

Students in this option, who have not yet attained their Literacy Co-Requisite, will be supported to do so if needed, while also making progress towards University Entrance literacy requirements.

Pre-requisites

Students in this option must be learners for whom English is not their first language. This course is available to English Language learners who have not completed 11ENA.

Achievement and Unit Standards

	Number of Credits	
	Ext.	Int.
91099 Analyse specified aspects of studied visual text, supported by evidence - NCEA English Level 2.	4	
30507 Write a short text under test conditions in English for an academic purpose.		5
30511 Read and process information on a familiar topic in English for academic purpose.		6
30510 Deliver a short oral presentation in English for an academic purpose.		5
Total Credits: 20		

Mathematics and Statistics

Mathematics is an important part of God's creation. When God saw all He had made the Bible says that He was very pleased. As we learn more about Mathematics, we also learn more about the incredible universe that God made.

Mathematics is the exploration and use of patterns and relationships in quantities, space, and time. Statistics is the exploration and use of patterns and relationships in data. These two disciplines are related but different ways of thinking and of solving problems. Both equip students with effective means for investigating, interpreting, explaining, and making sense of the world in which they live. The skills of Mathematic and Statistics are part of our daily lives, whether in our work, our personal business, or our recreation. Mathematics and Statistics are also important tools for many other subjects; understanding what is taught in Mathematics and Statistics will make many other subjects easier to understand.

Mathematics – Akoranga (12MAT)

Course Description

Students develop new skills in algebra, trigonometry, graphs and statistics and are introduced to calculus.

Students who meet the entry criteria should take this course as it is foundational to Level 3 Calculus and/or Statistics.

Pre-requisites

Numeracy Co-Requisite *AND* 16 credits

including Merits or above in:

- 1.2 Algebra, and one of:
 - 1.4 Measurement/Geometry
- 1.3 Graphical Methods
 - 1.5 Geometric Reasoning

Specific Costs

A graphics calculator (preferably Casio e.g. fx-9750G plus), is essential for this course.

Achievement Standards

91259 Apply trigonometric relationships in solving problems.

91261 Apply algebraic methods in solving problems.

91262 Apply calculus methods in solving problems.

91267 Apply probability methods in solving problems.

91269 Apply systems of equations in solving problems.

Total Credits: 18

Mathematics – Tumu (12MTU)

Course Description

Students develop and extend their statistics skills, develop new skills in probability, trigonometry and experience new topics as well. There is a pathway to Statistics or Maths and Statistics at Level 3 from this course (but not Calculus).

This course is suitable for students who prefer the option of more internal assessments as there is only one external standard.

Pre-requisites

Numeracy Co-Requisite *AND*

If coming from:

- 11MTX/11MAT, also require 8 credits
 - from Year 11 Maths.
- 11MAC, also require 8 credits, including at least one of:
 - 1.4 Measurement/Geometry
 - 1.6 Multivariate Data

Specific Costs

A graphics calculator (preferably Casio e.g. fx-9750G plus), is essential for this course.

Achievement Standards

91256 Apply coordinate geometry methods in solving problems.

91258 Apply sequences and series in solving problems.

91259 Apply trigonometric relationships in solving problems.

91260 Apply networks in solving problems.

91267 Apply probability methods in solving problems.

91268 Investigate a problem using simulation.

91264 Use statistical methods to make an inference.

Mathematics - Senior Numeracy (12MSN)

Course Description

The Senior Numeracy Course will support students to gain their NCEA Numeracy Corequisite (US32406) as well as, where appropriate, work towards some Level 2 Achievement Standards (listed below). This course is compulsory for Year 12 and 13 students without Numeracy (or equivalent). However, exemptions could be granted in exceptional circumstances. These exemptions would be granted by the Head of Faculty and in conjunction with the appropriate Dean, the Learning Centre and International College (if applicable).

Pre-requisites Students who are yet to gain their NCEA Numeracy Corequisite.

Specific Costs Scientific calculator (fx-82 or similar)

Achievement Standards

91256 Apply coordinate geometry methods in solving problems.

91258 Apply sequences and series in solving problems.

91260 Apply networks methods in solving problems.

91268 Investigate a situation involving elements of chance using a simulation.

91476 Use critical path analysis in solving problems

Science

In Level 2, there are three Science subjects to select; Biology, Chemistry and Physics. Each of these lead into a Level 3 course of the same subject. Please note that some details of each course may be subject to change should the Head of Faculty consider it to be of educational advantage to students to do so.

Biology (12BIO)

Course Description

The Level 2 course provides a basis for work covered in Level 3 Biology as well as providing a general background for work covered in further studies at University or Polytechnic.

The major topics covered are:

- Ecology
- Cell Biology
- Animal and Plant Diversity
- Genetics and Evolution
- Applied Biology

Pre-requisites A passing grade in Science 1.4 (cardiovascular system) and a passing grade in Science 1.3 (MGS Year 11 exam).

Specific Costs A "write-in" workbook \$23.

Achievement Standards

91153 Carry out a practical investigation in a biology context, with supervision

91155 Demonstrate understanding of adaptation of plants or animals to their way of life

91157 Demonstrate understanding of genetic variation and change.

91159 Demonstrate understanding of gene expression.

91158 Investigate a pattern in an ecological community with supervision (may be optional or omitted).

4

3

4

4

4

Total Credits: 15-19

Chemistry (12CHE)

Course Description

In their study of chemistry students will use their developing scientific knowledge, skills and attitudes to:

- Investigate and develop an understanding of the ways materials and chemical processes interact with people and the environment.
- Carry out a range of practical investigations and use this and other information to explore chemical behaviour.
- Understand important concepts in chemistry and major patterns of chemical behaviour:
 - Atomic Structure and Bonding
 - Organic Chemistry
 - Quantitative Chemistry
 - Oxidation Reduction
 - Physical Chemistry
 - Inorganic Substances

Pre-requisites A passing grade in Science 1.1 (Chemistry) and a passing grade in Science 1.3 (MGS Year 11 exam).

Specific Costs A "write-in" workbook \$23.

Achievement Standards

	Number of Credits	
	Ext.	Int.
91164 Demonstrate understanding of bonding, structure, properties and energy changes	5	
91165 Demonstrate understanding of the properties of selected organic compounds.	4	
91166 Demonstrate understanding of chemical reactivity.	4	
91167 Demonstrate understanding of oxidation-reduction.		3
91910 Carry out a practical investigation into a substance present in a consumer product using quantitative analysis.		4
Total Credits:		20

Physics (12PHY)

Course Description

The Level 2 course covers the basic principles that provide a good foundation for the future development and understanding of this subject.

The topics covered are:

- Electromagnetism.
- Mechanics (motion, force, momentum and energy)
- Atomic and nuclear physics.
- Electricity (static and direct current)
- Practical investigation.
- Wave systems (not formally assessed)

Pre-requisites

A passing grade in Science 1.2 (physics) and a passing grade in Science 1.3 (MGS exam), and a minimum of 12 credits in Mathematics.

Specific Costs • A "write-in" workbook \$23
• Field trip \$15

Achievement Standards

	Number of Credits	
	Ext.	Int.
91169 Demonstrate understanding of physics relevant to a selected context.		3
91171 Demonstrate understanding of mechanics	6	
91172 Demonstrate understanding of atomic and nuclear physics		3
91173 Demonstrate understanding of electricity and electromagnetism	6	
Total Credits:		18

Accounting (12ACT)
Course Description

Accounting is the language of business. Accounting skills and knowledge are relevant to everyone in today's sophisticated financial environment.

Accounting is a required component of most business and finance courses at tertiary level.

Accounting is an essential skill for numerous careers, including the fields of business, management, the government sector and voluntary community organisations.

Level 2 Accounting develops the introductory ideas introduced in Level 1 and covers processing, reporting, and interpreting financial information for small to medium sized businesses. We use the MYOB online software package for learning and assessment of Achievement Standard 91175.

Level 2 Accounting is equally valuable as a one-year stand-alone course or as preparation for study at higher levels. Successful completion of Level 2 Accounting is a pre-requisite for Level 3.

Pre-requisites Previous study in Commerce is desirable

Specific Costs Calculator

Achievement Standards

Ext. Int.

91174	Demonstrate understanding of accounting concepts for an entity that operates accounting subsystems	4	
91175	Demonstrate understanding of accounting processes using computer software		4
91176	Prepare financial statements for small to medium sized sole proprietor business	5	
91177	Interpret financial information for small to medium size sole proprietor businesses	4	
91179	Demonstrate understanding of an accounts receivable subsystem for an entity		3
Total Credits:		20	

Business Studies (12BUS)
Course Description

New Zealand has one of the highest per capita rates in the world of small business start-ups each year. However, it is a sad fact that we also have one of the highest business failure rates; over 80% of new businesses close within two years. The course will give you skills in running your own business. With a group of 2-3 others you will develop a business plan and run your own small business during the year. This business must benefit local community. This business activity will run throughout the year and counts for almost half the course credits.

You will also develop an understanding of how medium to large sized business work in New Zealand.

You will develop skills in running "for profit" businesses but will also develop an appreciation of business as a social enterprise, i.e. how business enterprises can make a real difference to the lives of people and communities.

Specific Costs

A small amount of capital will be needed for your business activity. The amount will depend on the nature of the activity but it could be as little as \$30

Achievement Standards
Number of Credits

Ext. Int.

90844	Demonstrate understanding of how a large business responds to external factors	4	
90846	Conduct market research for a new or existing product		3
90847	Investigate the application of motivation theory on a business.		3
90848	Carry out, review and refine a business activity within a community context with		9
Total Credits:		19	

Classical Studies (12CLS)

Course Description

Classical Studies is a multidisciplinary subject focusing on the cultures of ancient Greece and Rome. Classical Studies is the study of the people, places, and events of the classical world and how they influence the modern world. Much of our art, science, literature, law, philosophy, politics and religion comes from ancient Greece and Rome. Classical Studies investigates the history, lifestyle, mythology, art, religion and literature of Greece and Rome. Emphasis is placed on a comparison of the Classical and Biblical worldviews. The course will develop a range of skills that are transferable to the outside world, such as the ability to think critically, research, express yourself clearly and concisely, analyse and present an argument.

Year 12 Classical Studies provides an introduction to the Classical World. We study a Greek Epic called the Odyssey and examine ideas and values of the classical world. Significant art and architecture of Ancient Greece is examined. We look at the destruction of Pompeii as a key event in the ancient world. We also study the lasting influence of the classical world on our world today.

- Pre-requisites**
- Achieved Literacy co-requisite.
 - Entrance at the discretion of the Teacher in Charge.

Number of Credits

Achievement Standards

	Ext.	Int.
91200 Examine ideas and values of the classical world	4	
91201 Examine the significance of features of work(s) of art in the classical world	4	
91202 Demonstrate understanding of a significant event in the classical world		4
91203 Demonstrate understanding of the relationship between aspects of the classical world and aspects of other cultures.		6
Total Credits:		18

Economics (12ECO)

Course Description

Economics is the "study of choice", how individuals, groups and nations choose how to use their scarce resources to satisfy their unlimited needs.

Year 12 Economics introduces the skills and ideas of Economics in the context of the New Zealand economy. You will appreciate how economic decisions are made and how New Zealand fits into the world-wide economy.

The focus is contemporary New Zealand economic issues, including inflation, growth and unemployment.

Economics is relevant to numerous careers, including the fields of business, accountancy, political science, the government sector, social science and voluntary community organisations

- Pre-requisites**
- Entrance at discretion of Teacher in Charge.
 - Previous study in commerce is desirable.

- Specific Costs** Calculator

Number of Credits

	Ext.	Int.
91222 Analyse inflation using economic concepts and models	4	
91224 Analyse economic growth using economic concepts and models	4	4
91225 Analyse unemployment using economic concepts and models		6
91227 Analyse how government policies and contemporary economic issues interact		
Total Credits:		18

Geography (12GEO)

Course Description

Level 2 Geography builds on the knowledge and skills gained in Year 11 and continues to prepare students for an active role in partnering with God in the work He is doing to restore the world He has redeemed. Therefore, prior study of Geography is advisable, but not strictly required before entering Level 2. The subject will continue to train you to analyse the world (see it in its parts) and then integrate your understanding (put together the big picture) using Geographic concepts and skills. It is expected that two field trips of one-day each will take place during the year. Dates have yet to be confirmed.

Pre-requisites

- Must have achieved Literacy co-requisite.
- Entrance at the discretion of the Teacher in Charge.
- Previous study in geography is desirable

Specific Costs

- Optional field trips estimated \$100 total
- Geography 2.4 skills workbook \$27

Achievement Standards

Number of Credits

	Ext.	Int.
91242 Demonstrate geographic understanding of differences in development	4	
91243 Apply geographic skills and concepts	4	
91244 Conduct geographic research with guidance		5
91245 Explain aspects of a contemporary geographic issue		3
91241 Demonstrate geographic understanding of an urban pattern		3
Total Credits:	19	

History (12HIS)

Course Description

Level 2 History explores key events, people, and ideas that have shaped the modern world. Students will investigate causes and consequences, compare perspectives, and develop skills in interpreting historical evidence. Through guided inquiry, students learn to ask critical questions, evaluate sources, and communicate their findings clearly. This course builds confidence in research and analysis, providing a strong foundation for further historical study.

- Topics are selected from:
- Antarctic Exploration
 - Dawn Raids
 - The Russian Revolution (1890-1922)
 - Vietnam and Conflict in Indo-China 1945-75
 - Invasion of Parihaka 1881

Pre-requisites

- Must have achieved Literacy co-requisite.
- Entrance at the discretion of the Teacher in Charge.
- Previous study in history is desirable

Achievement Standards

Number of Credits

	Ext.	Int.
91229 Carry out an inquiry of an historical event or place that is of significance to New Zealanders.		4
91231 Examine sources of an historical event of significance to New Zealanders	4	
91232 Interpret different perspectives of people in an historical event of significance to New Zealanders		5
91233 Examine causes and consequences of a significant historical event	5	
Total Credits:	18	

Pasifika Studies (12PAS)

Course Description

This class is inclusive and open to all ethnicities and will appeal to students who identify with or who are interested in Pacific history, culture, literature, and contemporary socio-political issues.

Students will be taught Social Studies standards to their academic level. The content of the course will steer towards the students' interests and members of the Pasifika community and other academics will be invited in to share their knowledge on various topics. Students who take Pasifika Studies in Year 13 will not study the same topics.

There will be a range of class activities and an additional option to study Tongan (at Christchurch Boys' High on Fridays Term 3) or Samoan through Te Kura Correspondence School.

The class is combined with Years 11 and 13 for instruction, but students will complete assessments appropriate to their year level.

Achievement Standards	Number of Credits	
	Ext.	Int.
91279 Demonstrate understanding of conflict(s) arising from different cultural beliefs and ideas	4	
OR		
91281 Describe how cultural conflict(s) can be addressed	4	
91280 Conduct and reflective social inquiry		5
91282 Describe personal involvement in a social action related to rights and responsibilities		5
91283 Describe a social action that enables communities and/or nations to meet responsibilities and exercise rights		4
Total Credits:		18

Physical Education and Health

Physical Education (12PED)

Course Description

Students contemplating this course should enjoy the challenges and variety of sport, and physical activity. The course combines practical and reflection aspects and students need to be prepared to work equally diligently in both practical and reflection areas. Assessments have a high practical focus and are in the context of Tapu Ae, Rogaine and Turbo Touch.

Pre-requisites

- Preference is given to students who studied 11PED and entrance is at the discretion of Head of Faculty.
- It is expected that students play a winter and/or summer sport
- PE uniform is required for practical sessions

Achievement Standards	Number of Credits	
	Ext.	Int.
91329 Demonstrate understanding of the application of biophysical principles to training for physical activity.		4
91330 Perform a physical activity on an applied setting.		4
91336 Analyse group processes in physical activity.		3
91332 Evaluate leadership strategies that contribute to effective functioning of a group.		4
91333 Analyse the application of risk management strategies to a challenging outdoor activity.		3
Total Credits:		18

Christian Studies (12CHR)**Course Description**

Christian Studies in Year 12 is compulsory and continues to build on prior learning in Year 11 and earlier by seeking to increase students' Biblical literacy, and thereby knowing God through His Word. In addition, Level 2 Christian Studies begins to examine broader topics related to the world and Christian thinking. The aim is to equip students for continuing in their faith in their life beyond school. This is done in two ways. Students compare Christianity to other religions and they examine a historical figure who was key in bringing the Gospel to Christchurch at a time that led to the establishment of Middleton Grange School.

Achievement Standards**Number of Credits**

	Ext.	Int.
90821 Explain the changes in an expression of a religious tradition		6
90823 Explain the key beliefs within two religious traditions in relation to a significant religious question.		6
91724 Examine a key theme in a sacred text within a religious tradition		6
Total Credits:		18

Technology**Design and Visual Communication (12DVC)****Course Description**

The course is designed to extend skills developed in Year 11. It is delivered through project work consisting of briefs related to either of:

- Product Design
- Spatial Design

All assessments are generated through project work that has been completed during the year and comprises both internal and external assessment.

The course leads naturally through to Level 3 DVC or to tertiary study for those who wish to take it further.

Successful completion of Year 11 DVC course as the work at Level 2 builds on the knowledge and skills acquired through Year 11.

Achievement Standards *A course consisting of at least 14-18 credits will be comprised from a selection of the standards below:*

Number of Credits

	Ext.	Int.
91337 Use visual communication techniques to generate design ideas.	3	
91338 Produce working drawings to communicate technical details of a design.	4	
91339 Produce instrumental perspective projection drawings to communicate own design ideas.	3	
91340 Use the characteristics of a design movement or era to inform own ideas.		3
91341 Develop a spatial design through graphics practice.		6
91342 Develop a product design through graphics practice.		6
91343 Use visual communication techniques to compose a presentation of a design.		4
Total Credits:		(14-18)

Food and Nutrition (12FNT)

Course Description

In the Level 2 Food and Nutrition course, the focus is on the nutritional needs of individuals and families. Both nutrition knowledge and student research are used to investigate food related issues such as Sports Nutrition, Food Security and Sustainability. Links are made between the health and nutrition choices individuals make, and the external factors which influence our well-being. The course is approximately 75% theory and 25% practical classes and provides an excellent foundation for Level 3 Food and Nutrition, and various tertiary study options in health.

Pre-requisites

- Previous experience in food and nutrition is advantageous but not essential.
- As a large proportion of this course involves internet-based research and report writing, students need to bring their own laptop to class

Course Fee - Important Note

The cost of providing ingredients for the practical component of *Food and Nutrition* is considerable. A fee of **\$170** applies to help cover these expenses. Students are able to take home the food they prepare in class. By selecting *Food and Nutrition*, you are agreeing to be invoiced for this amount at the start of the course.

Achievement Standards	Number of Credits	
	Ext.	Int.
91299 Analyse issues related to the provision of food for people with specific food needs		5
91300 Analyse the relationship between well-being, food choices and determinants of health	4	
91301 Analyse beliefs, attitudes and practises related to a nutritional issue for families in NZ		5
91302 Evaluate sustainable food related practices		5
Total Credits:		19

Workshop Technology (12WTC)

Course Description

This course builds on the work covered in Year 11 and is assessed against BCITO Unit Standards. These standards incorporate a mixture of small-group outdoor builds, and individual construction projects.

The course will be selected from the standards below

Pre-requisites

It is highly recommended that students should have completed Year 11 Workshop Technology

Specific costs

- Projects cost approximately \$50-150
- To support the course, students are encouraged to design and build projects. Student projects that cost over \$50 in materials are to be parent approved before construction and materials will be invoiced to parents
- Material for instructional purposes is supplied.

BCITO Standards	Number of Credits	
	Ext.	Int.
12927 Identify, select, maintain and use hand tools for BCATS projects		6
24350 Demonstrate knowledge of health and safety legislation and apply safe working practices		4
22129 Construct and perform routine maintenance on a basic residential timber fence		4
31812 Complete a BCATS project		6
OR		
12932 Construct timber garden furniture as BCATS projects		8
Total Credits:		20-22

Computer Science and Programming (12DTC)

Course Description

Level 2 Computer Science and Programming builds on the knowledge gained in Year 11 Computer Science. It is designed to provide a solid foundation for careers in computing, especially software engineering, and the study of computing at tertiary level. It provides a foundation for the more advanced course in Year 13.

Pre-requisites

- Students must have access to a computer that is running Windows
- Successful completion of Year 11 Computer Science, or some experience with programming in Python is recommended.
- Should enjoy solving computational problems. Those whose strengths include Maths and English are most likely to succeed.

Achievement Standards

	Number of Credits	
	Ext.	Int.
91892 Use advanced techniques to develop a database		4
91896 Use advanced programming techniques to develop a computer program		6
91897 Use advanced processes to develop a digital technologies outcome		6
91898 Demonstrate understanding of a computer science concept	3	
Total Credits:		19

Digital Skills for Employment and Education (12DTS)

Course Description

This Level 2 course, which is 100% internally assessed, is designed for students who want to further their skills in everyday applications. It is suitable for all students, especially those wanting digital technologies skills for educational, personal, or vocational use.

Pre-requisites

- Basic computing literacy/skills. Some experience with MS Word and Excel is highly recommended.
- Adequate literacy skills to understand workbook instructions.
- An ability to work autonomously and independently.

Achievement and Unit Standards

	Number of Credits	
	Ext.	Int.
29769 Use the main features and functions of a word processing application for a purpose		4
29770 Use the main features and functions of a spreadsheet application for a purpose		4
29771 Use the main features and functions of a presentation application for a purpose		3
29772 Manage files and folders using digital devices		2
29774 Use the main features and functions of a desktop publishing application to create documents		4
Total Credits:		17

Digital Technology Media (12DTM)

Course Description

Level 2 Digital Technology Media is a course designed to provide a solid foundation for careers or tertiary study in design and media technologies. It flows into a Digital Media course at Level 3.

Pre-requisites

Nil. However, students who have completed a Digital Technology course in Year 11 will be well prepared for entry into Level 2 Digital Technology Media.

Achievement and Unit Standards

	Number of Credits	
	Ext.	Int.
29773 Produce digital images for a range of digital media		3
91357 Undertake effective development to make and trial a prototype		6
91890 Conduct an inquiry to propose a digital technologies outcome		6
91893 Use advance techniques to develop a digital media outcome		4
91897 Use advanced processes to develop a digital technologies		6
91899 Present a summary of developing a digital outcome	3	
Total Credits:		22

Learning Languages

Spanish (12SPA)

Course Description

Spanish continues to be taught communicatively, building skills in reading, writing, listening, and speaking. Students will reinforce and develop what was learnt in Year 11, which will help to prepare them for internal and external assessments for NCEA Level 2 Spanish. Students will be developing their own language learning strategies. The objectives and content are at level 7 of the Spanish NZ Curriculum Document. At level 7, students begin to engage in sustained interactions and produce extended texts as they explore the views of others and develop and share personal perspectives. The content and language of the communication is targeted to include the expression and justification of their own ideas and opinions, as well as supporting and challenging the ideas and opinions of others. Students can respond to increasingly complex and varied texts.

Topics include:

- Sports and free time
- Food and health
- Spain and Latin America
- Tourism and the environment
- Future plans and jobs
- Family and relationships

Pre-requisites

Successfully completed Year 11 Spanish (or equivalent). Exemption may be granted by negotiation with the Languages Head of Faculty.

	Number of Credits	
	Ext.	Int.
91148 Demonstrate understanding of a variety of spoken texts on familiar matters	5	
91149 Interact using spoken Spanish to share information and justify ideas and opinions in different situations.		5
91150 Give a spoken presentation in Spanish that communicates information, ideas and opinions		4
91151 Demonstrate understanding of a variety of written and/or visual Spanish text(s) on familiar matters..	5	
91152 Write a variety of text types to convey information ideas and opinions in genuine contexts.		3
Total Credits:		24

Māori (12MAO)

Course Description

This course is internally and externally assessed and continues to build upon the language structures, customs, and vocabulary learned in Year 11.

The actual course will be made up from a selection of the following assessments based on the abilities and interests of the students in the class.

Pre-requisites Successfully completed Year 11 Māori or by negotiation with Teacher in Charge of Māori.

Specific Costs

- Optional day trips
- Optional overnight Marae visit - approximately \$150
- Optional Māori dictionary

	Number of Credits	
	Ext.	Int.
91284 Whakarongo (listening)		4
91286 Pānui (reading)	6	
91981 Perform a Te Ao Haka item to respond to a local kaupapa		6
91983 Respond to a Te Ao Haka performance	4	
Total Credits:		20

Drama (12DRA)

Course Description

Level 2 Drama builds on the foundational work begun at in Year 11. The course has a strong performance base but does insist that students submit written evaluations and preparation notes in support of the presentations associated with each of the achievement standards. In addition to developing the personal skills of:

- public speaking
- presentation
- analysis and empathy
- focus

The Level 2 course aims to foster students' knowledge and ability to use drama techniques and processes, and to develop critical appreciation. It includes both students devised and scripted work with a special study of, and performance in, a particular style/ period of drama/theatre.

Students must attend at least one live theatrical performance in the year of the externally assessed AS91219. The specific performance will be determined during the year, studied in depth and will form the basis of one section of the standard.

Pre-requisites

Although success in Year 11 offers an advantage, the enthusiastic student beginning curriculum drama at this level will find the course both interesting and rewarding.

Specific Costs

Opportunity to purchase a group discount ticket for a live theatre production will be made available, in order to complete submission for AS91219.

Achievement Standards - depending on skills and interests of the class, the course will offer a selection of the standards below:	Number of Credits	
	Ext.	Int.
91213 Apply drama techniques in a scripted context		4
91214 Devise and perform a drama to realise an intention		5
91217 Examine the work of a playwright		4
91218 Perform a substantial acting role in a scripted production		5
91219 Discuss drama elements, techniques, conventions, and technologies within live performance	4	
Total Credits:		22

Music (12MUS)**Course Description**

Level 2 Music provides an opportunity for students to specialise in one of four musical pathways; recording, performing, writing, or musicology. All students will be taught the fundamental concepts of composition, performance, score reading, music analysis and then apply these skills to their chosen pathway. This course has a strong emphasis on self-directed learning and is therefore appropriate for students who have specific areas within music that they are passionate about. Students will also need to display competence and have experience playing an instrument in order to apply their learning in a practical manner.

The course examines musical techniques and processes of the past and present in order to develop students' abilities in composition, performance and production. Communicating these abilities to an audience is a key focus of the course.

Note: Student's chosen pathway will be equivalent to 21-22 of the following credits

Pre-requisites

- Students *MUST* be able to play an instrument (which includes voice) to a reasonable standard (approximately 3-4 years minimum tuition) and are continuing to receive tuition on the instrument while in the course.
- Basic theory skills (i.e. reading treble clef notation) are assumed.
- Students are expected to participate in a school music group.

Specific Costs \$40 per annum for those who use the school accompanist for solo performances.

Achievement Standards and Unit Standards	Number of Credits	
	Ext.	Int.
91270 Perform two substantial pieces of music as a featured soloist.		6
91271 Compose two substantial pieces of music.		6
91272 Demonstrate ensemble skills by performing a substantial piece of music as a member of a group.		4
91273 Devise an instrumentation for an ensemble.		4
91274 Perform a substantial piece of music as a featured soloist on a second instrument		3
91275 Demonstrate aural understanding through written representation	4	
91276 Demonstrate knowledge of conventions in a range of music scores	4	
91278 Investigate an aspect of New Zealand music		4
27703 Demonstrate and apply knowledge of sound control and enhancement processes required for a performance context		4

Total Credits: Up to 21-22

Visual Art

Art Design (12ARD)

Course Description

In this course, students will take charge of their own creative projects. They'll come up with a design brief based on a topic that interests them and create promotional materials that reflect their ideas. The teacher will guide and support students as they plan and develop their work.

This year builds on the skills learned in Year 11, shifting the focus from experimenting with different media to exploring a personally chosen theme. Students will develop a strong, connected body of work that shows their creative thinking and design skills.

The process of making art will be assessed internally, while the final artworks will be submitted as a folio (two boards) and assessed externally. The folio showcases the student's ability to apply design techniques, methods, and processes learned throughout the course.

Pre-requisites • Limited places are available in this course - preference will be given to students who have passed Year 11 Art

• Computer knowledge is beneficial

Specific Costs • Printing \$10 per A1 sheet (2 required)
• Folio board and consumable charge \$20
• Art pack specified in stationery list - approx \$40

Number of Credits

Achievement Standards

91310 Use drawing methods to apply knowledge of conventions appropriate to design

Ext. Int.

4

91315 Develop ideas in a related series of drawings appropriate to established design practice.

4

91320 Produce a systematic body of work that shows understanding of art making conventions and ideas within design.

12

Total Credits: 20

Art Painting (12ARP)

Course Description

This course invites students to explore their creativity through a personal theme they develop with guidance from their teacher. They'll learn and apply a range of art-making techniques to create a series of connected artworks that reflect their ideas and interests.

A unique aspect of this course is the exploration of metaphors from Scripture. Students will reflect on these metaphors and interpret them in visual ways that reveal deeper meaning. This process encourages thoughtful expression and helps students connect their faith with their creative practice.

Throughout the year, students will refine their skills and ideas, leading to a final two-panel folio that showcases their artistic journey and personal voice.

At its heart, this course supports students in using art to appreciate God's creation and express their faith, identity, and emotions in ways that words often cannot, deepening their connection to Him and His purpose for their lives.

Pre-requisites Limited places are available in this course. Preference will be given to students who have studied Year 11 Art.

Specific Costs • Folio board and specialty paper charge \$20
• Art pack specified in stationery list, approximately \$90

Number of Credits

Achievement Standards

91311 Use drawing methods to apply knowledge of conventions appropriate to painting

Ext. Int.

4

91316 Develop ideas in a related series of drawings appropriate to established painting practice.

4

91321 Produce a systematic body of work that shows understanding of art making conventions and ideas within painting.

12

Total Credits: 20

Art Photography (12APH)

Course Description

This course is designed for students who are ready to take ownership of their creative journey. Building on the visual art skills developed in Year 11, students will choose a theme that is personally meaningful to them and explore it through photography.

They'll learn a range of techniques including pinhole photography, manual settings on digital SLR cameras, lighting setups, and editing with Adobe Photoshop. Students will also research artist models and use photography conventions to help shape their own portfolio of work.

A unique part of this course is the opportunity to explore metaphors from Scripture and reflect on how these can be interpreted visually. This encourages students to express deeper meaning through their images, connecting their faith, identity, and emotions in ways that words often cannot.

This course is ideal for students who enjoy working independently, want to express their artistic ideas, and are considering further study in Visual Arts. It supports students in using photography to appreciate God's creation and explore His purpose for their lives through creative expression.

Pre-requisites Limited places are available in this course. Preference will be given to students who have studied Year 11 Art.

- DSLR Camera
- Laptop capable of supporting Adobe Photoshop
- Willingness to commit to photo shoots outside of class time

Specific Costs

- Printing \$10 per A1 sheet (2 required)
- Folio board and consumable charge \$20
- Art pack specified in stationery list, approximately \$40

Achievement Standards

	Number of Credits	
	Ext.	Int.
91312 Use drawing methods to apply knowledge of conventions appropriate to photography		4
91317 Develop ideas in a related series of drawings appropriate to established photography practice		4
91922 Produce a systematic body of work that shows understanding of art making conventions and ideas within photography	12	
Total Credits:		20

Alternative Pathways to Qualifications

STAR (Secondary Tertiary Alignment Resource)

The STAR provides learning experiences that link to students' needs and transitions them into tertiary study. Courses may be within the school (such as Barista, First Aid, or online like some first year University courses.)

Visit the Tertiary and Vocational Coordinator for any requests.

STAR aims are to:

- Help students' direct entry into the work force
- Provide students with courses that both meet their needs and help their transition into further education or employment
- Help students make informed decisions about their future schooling and future work

Te Kura Correspondence School (12COR)

Subjects which are not offered at Middleton are sometimes offered through the correspondence school. Students are allowed to do these subjects at the discretion of their parents, their Dean and the Te Kura Co-ordinator. They would do the subject during their study time.

Tourism and Hospitality (12TAH)

Course Description

The class is open to Year 12 students who are interested in a career pathway in tourism and/or hospitality. Students will also learn job interview and employability skills and how to write a CV. Guest speakers from the industry and liaisons from relevant tertiary programs will be invited to speak to the class. Students will complete two weeks of work experience outside school hours. Recommended to study alongside Food Technology, Geography, Business.

As this is a Gateway funded course, there is a 20 credit requirement for Tertiary Education Commission reporting purposes. These 20 credits must be obtained from the standards below to meet this requirement.

Unit Standards	Number of Credits	
	Ext.	Int.
10780 Complete a work experience placement -Level 2		3
17284 Demonstrate knowledge of coffee origin and production		4
17285 Demonstrate knowledge of commercial espresso coffee equipment and prepare espresso beverages under supervision -Level 2		4
24728 Demonstrate knowledge of work roles in tourism -Level 2		3
24729 Demonstrate knowledge of world tourist destinations. -Level 2		4
24731 Demonstrate knowledge of destination New Zealand. -Level 2		4
31070 Explain the importance of Māori Place Names and use Reo Māori greetings and Farewells in Tourism. -Level 3		4
Total Credits:		26

Introduction to Education and Teaching (12IET)

Course Description

This course is designed to prepare students who are interested in a career working with children. The career possibilities include Early Childhood Education and Primary Teaching, Social Work, Nursing etc. The course sets the foundation for understanding children's development and learning in the wider context of community, culture and ethics.

The course involves work experience in an Early Childhood Centre for two days per term for three terms, and in the Primary School during timetabled periods.

There is a practical component including Sign Language, Music, Te Reo Māori, Art and resource making. Personal development and growth is an important aspect of the course with various tools used to foster this including the Strengths Finders team coaching.

In consultation with the students, and based on their interests and academic needs, the course will be finalised in February 2026.

As this is a Gateway funded course, there is a 20 credit requirement for Tertiary Education Commission reporting purposes.

These 20 credits must be obtained from the standards below to meet this requirement:

Unit Standards	Number of Credits	
	Ext.	Int.
10026 Demonstrate knowledge of mokopuna/children's holistic development and learning in an Early Childhood Setting		5
10780 Complete a work experience placement		3
17592 Identify the causes of back injury and methods to prevent back injuries in a workplace		4
17593 Apply safe work practices in the workplace		4
26707 Describe the value of play and create resources for children's development and learning in an IET service		4
26708 Develop respectful, responsive and reciprocal relationships with children in an IET service		4
29867 Demonstrate knowledge of diverse whānau/families and use a range and effective communication strategies in an IET service		5
Total Credits:		29
